BRITISH MUSEUM

To the Right Honourable

JOHN

LORD CARTERET,

Baron of Hawnes,

one of the

LORDS of his MAJESTY'S

most Honourable Privy Council,

And

Principal Secretary of State &c.

MY LORD,

Since the Subject of the following Treatise, touches no Party, but

tends to a Publick Good, so I hope the Liber-
ty I have here taken, will be easier pardon-
ed: and what chiefly induces me to this Be-
lief, is the natural Inclination, y^r **LORD-
SHIP** is known to have for Learning in
general; Witness, your Encouragement of it,
by your **LORDSHIP's** late Present to the Uni-
versity of Upsal.

It would be needless for me, to repeat here
the many great and noble Virtues, w^ch adorn
your **LORDSHIP's** Character & Actions, they

being already so well known to y^e^ World.

However, my LORD, Gratitude, y^e^ only thing, wherein, I can be liberal, obliges me thus to address your LORDSHIP, as having receiv'd those Favours, for wch. I must acknowledge my self under such Obligations, as lying nearest my Heart, I cannot omit declaring in this Publick Manner: so it is impossible for me, not to lay hold, even with some Precipitation, of the least Occasion, wherein, I may in any Measure, express, not only what I esteem, so

much a Duty, but also, so great a Pleasure, to do my Self the Honour, of telling the World, that I am,

my LORD,

YOUR LORDSHIP'S,

most Obedient
and Devoted
Servant

Jo.n Hewitt.

THE PREFACE.

I believe I have no Reason to make any Excuse, for writing on a Subject of which, several ingenious Men have already treated, because, I would not have publish'd the following Piece, unless I could prove from Arguments beyond any reasonable Contradiction that it excels any of the kind extant.

But there are a Set of Men in the World, who are of such bigotted Opinions that if any Man has once found means to gain their Esteem, they think it impossible, any other Person can improve, what He has already publish'd.

There are also others, who are so far prejudic'd against a Man, as to disparage every Thing he performs, This is the Case of a very Ingenious Gentleman, with whom I have the pleasure to be acquainted, that through a former Misunderstanding, not owing to Himself, but to those, with whom he was concern'd; this Gentleman is so much Abused, that whatever he offers to publish, is ridicul'd by many malicious Persons, even before they have seen it.

I think all Men of Learning, Honour, or Honesty, will allow this to be an unfair proceeding, viz.t to condemn a Man, and never try him.

I shall now prove what I have alledg'd, that these Tables excell any of their kind extant; which I demonstrate by the four following Heads viz.t

I.st they are Easier
II.dly More Copious
III.dly More Compendious
IV.thly ___ Correcter

Easier, because they have the four Rates, 3, 4, 5, and 6, p.r Cent in eve-

ry Table, which none extant have. Here, to resolve a Question, regard is only had to Time, that found, the Rate, Principal, and Interest, is had at one view: In others you must first look for your Rate, then for y^e Time, after that, your Principal and Interest.

More **Copious**, in respect to Principal and Time, the first being from 1 Penny to £ 100,000, y^e last for 365 Days, 11 Months & 30 Years.

More **Compendious**, in regard to the small Number of Tables, being 100, or thereabouts less than M.^r Castaing's, and upward of 200 less than M.^r Hatton's, and yet neither of these Gentlemen have treated so copiously on the Subject as I have done.

Correcter, because, they are Engrav'd, and so consequently not liable to those Errors, to which, a common Press is.

By the Tables of Brokerage or Commission, Factors and Brokers, may easily know the Amount of their Commissions at the usual Allowances.

I now willingly submit them to the Censure of impartial Judges, and if any one can find an Error, and will let me know it I shall thank him for his Friendship, and endeavour

to mend it.

Explanation of the TABLE of TIME.

Take the Numbers, even with ye Dates under the proper Months, Substract the less from the greater, the Remainder is the Answer.

EXAMPLE 1st.

What is the Number of Days from April the 17th. to July ye 3d.

thus, right against 3, under Iuly stands ------ 184

Then against 17, under April is ------ 107 *which*

—— *Substract, the Answer is* ------ = 77 *Days*

N. B. when 'tis Leap Year, Add one to your Number

EXAMPLE 2d.

What is ye Number of Days from Novr. 10th. to March ye 24th.

When your Question begins at ye latter End of ye Year, and proceeds to the beginning, in such case, You must take as many Months in the Table as will answer the same, thus, from Jan: ye 10th. to May ye 24th. is as many Days as from Nov. ye 10th. to March ye 24th. because the Months in both these last Questions have ye same Number of Days, and when they have not, You must add, or Substract as many Days as they want, or have too much
